ABSTRACT

The guide lists and describes physical education and recreation services available to handicapped people in the Detroit, Michigan, area. Agencies are arranged in five sections: those agencies providing services for most handicaps, including mental retardation, physical impairments, and learning disabilities; those providing services principally for physically or health impaired; those providing services principally for the retarded; those providing services principally for visual, hearing, and speech impairments; and camps for the handicapped. Information provided for each agency includes name, address, phone number, director, age group served, who is eligible for services, handicapped population served, geographic area served, a description of services offered, hours and days programs are offered, fee requirements, office hours, and other miscellaneous information. Camps for the handicapped are briefly described. (DLS)

INTRODUCTION

The Parents Resource Guide for Physical Education and Recreation Services is a product of Detroits' Adaptive Physical Education Consortium Project. The guide was developed through the cooperative efforts of the Special Education Department of the Detroit Public Schools and many community agencies. The goal of the Parents Resource Guide is to provide a quick and convenient reference to Physical Education and Recreation Services available to Handicapped children, adolescents, and adults, in the Detroit area.

The inclusion of agencies and programs in the guide does not indicate an endorsement of these programs by the Detroit Public Schools. However, the vast majority of the agencies included in the book have proven themselves by years of service to Detroit Area Handicapped individuals.

This publication would not have been possible without the full cooperation of the included community agencies. The Project staff would also like to thank Mrs. Ingrid Draper, Assistant Director, Special Education Department, Detroit Public Schools, for her continuous advice and support.

The 1979 addition of the Parent Resource Guide may have deleted some Recreation Programs for the Handicapped in the Detroit Area. The staff would like to include any omitted programs in the 1980 edition. Please send any information update and the Guide Evaluation Form to Bruce Elkins, Project Coordinator.

We hope the Guide will be of service to you and your family. Additional copies are available at the address listed below.
